# REVOLUTIONARY BREAKTHROUGH

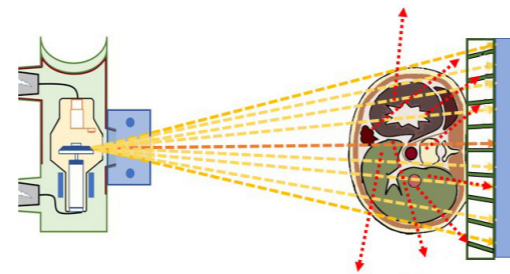

Higher Transmittance Lead-free is more eco-friendly

## Compared with the Traditional Grid

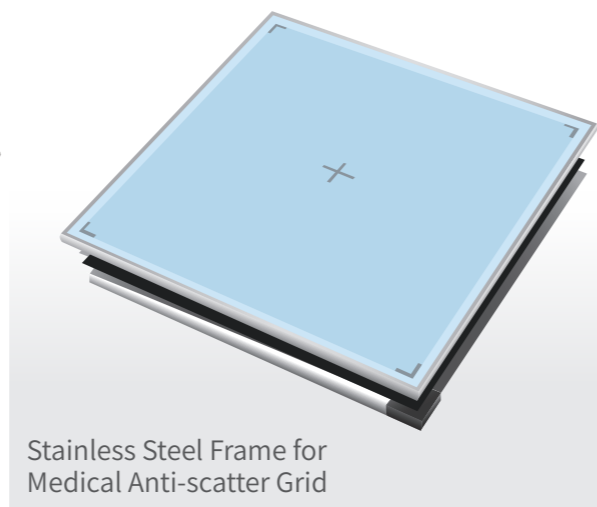

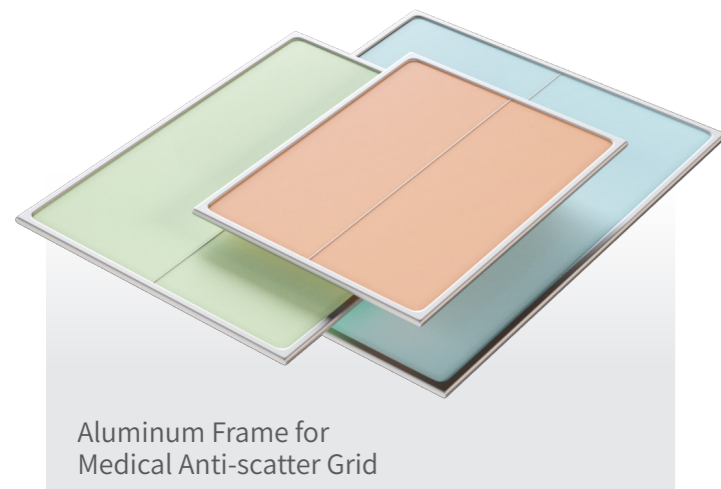

- 1** The polymer material has better X-ray transmission; (the ray absorption filter of the polymer material 1.4%/mm; X-ray absorption rate of aluminum 7%/mm)
- 2** Lead-free materials are more environmentally friendly and ROHS compliant
- 3** Better image quality with lower doses

Filter the Second-time Scattering of X-rays for a Better and Clearer Image

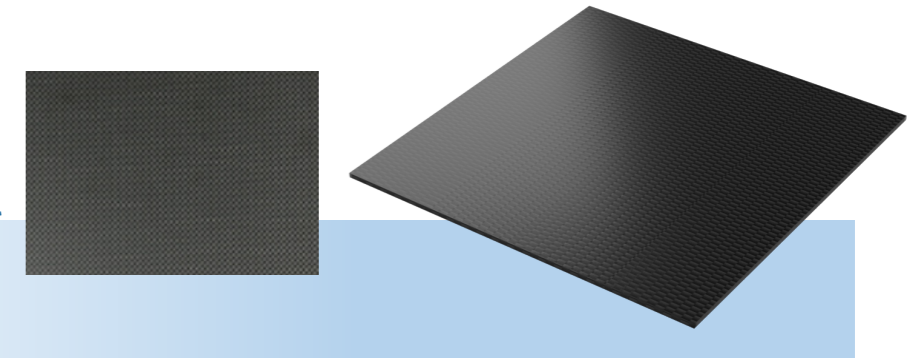

## Medical Grid Accessory

### PRODUCT 1

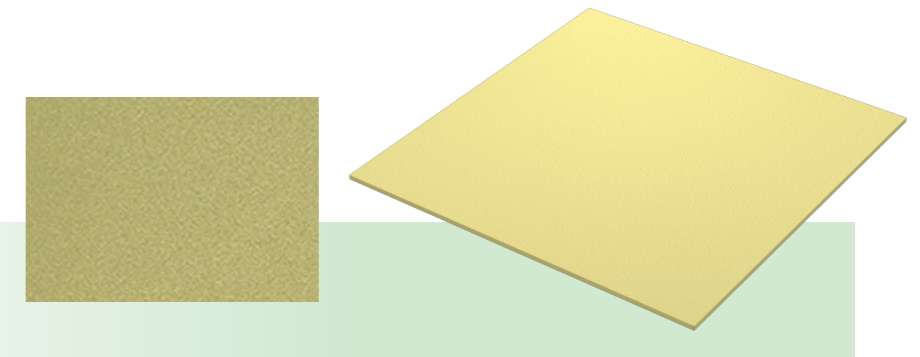

## Carbon-fiber Medical Anti-scatter Grid

Model number	Focus(cm)	Specification(cm)	Density	Grid Ratio	Applicable Equipment
LM GRID_X	60-65	18X24	31/cm	3:1、 5:1 6:1、 10:1	Mammary Inspection
			36/cm		
			41/cm
